Reference: Updated Policy/Rules

If policy or rules are revised outside of a duly convened Council meeting; they are to be ratified at the next duly convened council meeting. It was requested that if there are any updated policy or rules, that enough time is given in advance so the Housing Committee members know as well as the applicants.

Reference: Common Law

The Housing committee requested to keep the former point system where common law is considered for 10 points. Common law will have to be proven on application with supporting documentation.

Reference: Validating Applicants

It was requested that information on applications be verified as they come in. If there is required information or updates needed, the applicant will have time to update or acquire information needed. Also, by doing this will not make administration staff feel rushed to verify information last minute.

Reference: Medical points

It was suggested that medical points be removed from the regular point system in the future as it is not for a medical or disabled unit.

Meeting was adjourned at 10:38am.
