Attention: New Millbrook First Nation Members Under 19 Years of Age

For Millbrook First Nation members under the age of 19 years, the Millbrook Enterprise Credits are placed in a trust fund. When Millbrook members reach the age of 19, they must apply to Millbrook First Nation to have their Millbrook Enterprise Credit money released from the trust. The application form can be found at <https://www.millbrookband.com/s/Millbrook-Enterprise-Trust-Fund-Credit.pdf>

Please note that as of April 2020, Millbrook First Nation does not automatically receive all information on new registered members so that means that new members under the age of 19 years are not guaranteed to be added to the minor's trust list.

Please contact Priscilla Martin at pmartin@millbrookfn.ca with your name, date of birth and band number so that we can add you to the minor's trust list. Once you have been added to the minor's trust, no further applications are necessary until you reach 19 years of age.

If you are aware of any other new Millbrook First Nation members, please contact Millbrook First Nation.

Millbrook First Nation is continuing its involvement in the Energy Efficiency program working to make Millbrook's homes more comfortable and energy efficient by keeping valuable heat inside.

Would you like your home assessed by Energy Efficiency NS in the Spring?

If so, please email Lorne Paul at lpaul@millbrookfn.ca and please provide the following information in the email:

- ✎ Name
- ✎ Address
- ✎ Phone number and email address
- ✎ What is your current heat source?

Once we have these details, we will add your name to the list for the phase 5 assessments.

Heat Pump Cleaning

Please contact Eshaan at EcoLogic Heat Pump Solutions Ltd for a deep heat pump cleaning. Eshaan can be contacted by phone at 902-957-0661 to schedule an appointment, at no cost to the Millbrook First Nation home owner.

Home Insurance

Millbrook First Nation's insurance covers the structural costs of CMHC houses and band-owned homes on reserve. Please note that the contents inside the homes, including the appliances, are not insured by the First Nation. It is important to protect your belonging and one way to do that is to consider purchasing home insurance for the contents of your home. This became apparent after the recent flooding of basements that occurred in Millbrook's communities last month. If Millbrook members are interested in home contents insurance, they will be responsible and it will not be covered by the First Nation. Questions? Please reach out to Millbrook's housing department.

Millbrook's Security Services

Millbrook's security team is responsible for keeping Millbrook's community safe and secure. They work around the clock and are on call 24 hours a day. Their duties include patrolling the neighbourhoods of Millbrook and Cole Harbour because having a physical presence in the community is a deterrent for minor damage or other unsavoury activities. They are trained to identify unusual activity and pay attention to detail to reduce risks to the community. In addition, they observe and report suspicious activity that may be criminal.

If a community member is in danger or witnesses criminal activity, it is important that they call 911 or the local Millbrook or Cole Harbour, Sheet Harbour detachment of the RCMP. Please note that the security team cannot report incidents on your behalf.

Frequently Asked Questions – Housing Assessment Project

Q1. What is a visual condition assessment?

A visual condition assessment is a walkthrough of your home by a qualified buildings inspector with the goal of identifying building conditions that could cause a health and safety hazard to the occupant, a building code compliance infraction or general maintenance issues in the home. The inspector will be taking photos to document the inspection to accompany a report that will be generated on behalf of the First Nation. We will be looking at the exterior and interior of your home.

Q2. Will I receive a copy of the final report?

The final reports will be made available to the occupants through the community housing director. These reports are the property of the First Nation and cannot be shared by a third party (CMM).

Q3. What will this data be used for?

The housing assessment project will be used to assist the First Nation in the management of their housing stock. The data will provide communities with independent, current, and information-based housing conditions for all First Nation Owned housing units. The data collected during these inspections will assist your community in the prioritization and allocation of the annual housing budget.

Q4. Will my information be shared with external groups?

Your data is owned by the First Nation. Individual reports, photos and details will not be shared with our Federal Government partners or other external organizations. CMM follows OCAP principals. This project is for use by your First Nation management team only.

Q5. Is there anything that I should do to assist the inspection team prior to them arriving at my home?

If you have dogs, they should be housed in a secure location while the inspectors are in your home. Otherwise, you do not need to prepare anything!

Q6. What if the original scheduled time does not work for me?

Please let your community housing manager know, and your home can be scheduled at a later date.

Q7. What COVID precautions will your inspectors be using as they enter units?

1. CMM inspector will be testing regularly throughout the project.
2. CMM inspector will be providing community members with a screening questionnaire to minimize exposure from community.
3. CMM will be working with the housing manager to gauge the risk level in community throughout the project.
4. CMM inspector will be wearing an N95 style mask when entering units and maintaining a high level of sanitation throughout the process.
5. If the occupant has COVID 19 related concerns, please communicate that with the housing manager and CMM and provide additional measures or postpone your inspection.

If you have any other questions, please email your housing director or Thomas Bucher tbucher@cmmns.com.

THE CANADIAN DENTAL
HYGIENISTS ASSOCIATION
L'ASSOCIATION CANADIENNE
DES HYGIÉNISTES DENTAIRE

Registered Dental Hygienists Are Essential Primary Health Care Professionals

Oral health is essential to overall health. It is well established that poor oral health is associated with a host of health conditions such as diabetes, aspiration pneumonia, chronic obstructive pulmonary disease (COPD), heart disease, and immune-mediated inflammatory diseases (e.g., arthritis).¹ As the prevalence of some of these chronic conditions in older adults (over 65) is very high (e.g., diabetes 26.8%, heart disease 27%), it is critical that continuous comprehensive dental hygiene care be available to the population.²

In Canada, registered dental hygienists are in a prime position, as regulated health care professionals, to prevent and treat oral diseases through evidence-informed practice, promote oral health, and foster informed decision making related to oral health by their clients. Dental caries is the most common, yet preventable, chronic disease in the world.³ Furthermore, 52% of Canadians ages 65 and older suffer from periodontal (gum) disease that, if left untreated, can lead to tooth loss and negatively impact many aspects of their health.² Therefore, dental hygienists, as primary health care professionals, play a critical role in public and population health and should be considered essential workers.

Essential dental hygiene care includes any oral care and oral health education provided to individuals, families or communities that prevents and eliminates infection and disease of the mouth and associated structures. These interventions also allow individuals to maintain functions, such as eating, talking, and smiling, and contribute to overall health and well-being, and quality of life.

For residents in long-term care, dental hygiene services and individualized daily mouth care are essential to their health and well-being as they are at much higher risk for developing infectious diseases, such as SARS-CoV-2, due to their often suppressed immune systems. Dental hygienists are integral members of interprofessional health care teams working to provide comprehensive standards of care, supporting pain-free eating, speaking, and socializing, and providing vital oral health education and training to residents, caregivers, and family members.
